About WCIT

First held in 1978, the World Congress on Information Technology (WCIT) has become the premier international IT forum. Bringing together over 2,500 visionaries, captains of industry, government leaders and academics from more than 80 countries, it is an event of unparalleled scope and scale. Discussion topics range from emerging markets and technologies to legal and policy issues, user perspectives, new business opportunities and developing political and economic trends.

The WCIT consistently attracts high level, internationally recognized leaders from government, industry and academia.
