European Center of Exhibition and Promotion

GEOGRAPHICAL LOCATION

The E.C.E.P is set on the National Road of Athens – Lamia, on the 12 k.m., in Metamorphosis region. It is only 300 meters far from the spot where the National Road meets the Attica Road (EXIT No 8, LAMIA), something very important, as it is a straight connection to the El. Venizelos National Airport in Spata.

All the above contribute to the easiest access of the visitors from every different spot of Attica, without any traffic problems, as well as the comfortable access from all different part of the land, from the north or the south.

GENERAL BUILDING PROVISIONS

AIR – CONDITIONING: All the rooms are excellently air – conditioned, that is why the E.C.E.P. is one of the few exhibition centers in Attica that holds events during the period June – August.

TELEPHONE CENTRE: There is a capability of many internal lines that ensures the fast inland and outland communication as well as the internal one.

INTERNET CONNECTION: There is a capability of wireless internet connection for the organizers and the exhibitors.

SECRETARY SERVICES: Authorized staff provides information and services during the whole period of the exhibition as well as services like fax, photocopies and so on.

RESTAURANT – COFFEE BAR : In each of the four different salons of E.C.E.P., there is a permanent organized bar to provide the visitors with services in whatever they need (coffee, snacks, ice – cream, refreshments).

PARKING: There is a free of charge and comfortable parking all around the Exhibition center.

PUBLIC TELEPHONE: There are everywhere public phone devices which function either with phone cards or with coins.

ELEVATOR – PLATFORMS: In our Centre for the coverage of all needs during the exhibition, there are 2 external platforms of 2, 5 tones capability, each one for commercial stuff and so on., two external elevators OTIS with 14 persons capacity each one, 4 internal with capacity of 5 persons, 2 internal “truck” ones of commercial stuff, each one with 1.250 kg capacity. There are also internal OTIS railway stairs that connect the two floors.
